THE UNITED STATES FOOD ADMINISTRATION SAYS:
Food saving is in its essence the daily individual service of all the people. Every group can substitute, and even the great majority of thrifty people can save a little—and the more luxurious elements of the population can, by reduction to simple living, save much. This means no more than that we should eat plenty, but wisely and without waste.

WAR ROADS CONVENTION
Opening Session Held at Columbus Today

Columbus, Jan. 30.—The Ohio war roads convention, which opened here today, is formed by the joint sessions of the Ohio Good Roads Federation, Ohio Engineering society and County Commissioners' association. A general session was held this morning and afternoon meetings are being held by each group separately. Tonight the delegates will gather with the state highway department to discuss problems.

One of the strongest recommendations which is expected to come from the convention is that everything be devoted to helping the nation in war. This implies the discarding of all minor road improvement projects and concentration on the improvement of highways that traverse the state and link up with national highways of commercial and military importance.

A picture of the needs of such systems is furnished by the transportation difficulties growing out of the partial breakdown of the railways as well as their congestion with heavy government business.

Limits Rail Control.
Washington, Jan. 30.—The senate interstate commerce committee voted 7 to 6 to limit government control of railroads to one year after the end of the war. This action was in direct conflict with Director General McAdoo's recommendation that the period of control might be continued or ended as conditions after the war warranted.

Chemical Plant Burns.
